Reeba Keene: Special Education
Zack Lynn: Business Education
Mariah Meier: Special Education
Lisa Nihles: Speech Therapist
Mark Siegert: Physical Education and Athletic Director
Mike Uppena: Principal
Ronald Saari: Superintendent

Purpose of this Document

This document was developed in accordance with the new Education for Employment administrative rule to develop and publish a long-range plan with school district staff and community stakeholders. This plan will be reviewed yearly. Consistent with the legislative requirements, our plan includes strategies to incorporate:

- Local, regional, and state labor market needs.
- Education and training requirements for occupations that will fill labor market needs.
- Process to engage parents regarding ACP services provided and opportunities to participate.
- Strategy to engage business, postsecondary education, and workforce development.
- Description of career and technical education (CTE) programming available, staff professional development for employment program requirements.

ACP Mission Statement

The Potosi School District is committed to providing students with opportunities that empower them for postsecondary success. In order to accomplish this, students will engage in an Academic and Career Planning process, also known as ACP, which consists of self-exploration, career exploration, and the development of career management and planning skills. By helping students engage in the ACP process, the Potosi School District will be working towards our mission to “create lifelong learners of character who are productive members of society.”

Local, regional, and state labor market needs

Links to Information on Local, Regional, and State Labor Market Needs

- [Data Usa](#): This link provides information on Potosi's economy, health and safety, demographics, education, and housing and living.
- [Grant County Workforce and Economic Profile](#): This profile provides a snapshot of the labor market for Grant County, Wisconsin.
- [Wisconsin's WORKnet](#) This website provides data and information on Wisconsin's workforce and labor market.
- [Wisconsin Job Center](#): This website useful data sets on Wisconsin's labor market as well as links to additional information.

Education and training requirements for occupations that will fill labor market needs.

[Southwest Wisconsin Workforce Development Plan 2016-20](#): This document provides specific information and data regarding projected labor market needs for Southwest Wisconsin and the level of education required to meet these needs.

Process to engage parents regarding ACP services provided and opportunities to participate.

Consistent efforts will be made to keep parents and guardians informed on ACP services. Communication will occur through email, mail, parent/teacher conferences, registration, and school events. Communication efforts will also be made via posts on social media outlets such as the district's website and Facebook page.

Students in grades 6-12 will have access to a Career Cruising Profile. Career Cruising is a software tool designed to help individuals build self-awareness, explore career options, and create a plan that is saved into a virtual portfolio. Students are encouraged to share this portfolio with parents and guardians.

Parents are invited to attend the following ACP related activities:

- Junior planning meetings
- Senior planning meetings
- Financial aid night

Strategy to engage business, postsecondary education, and workforce development.

Our school district leaders intend to work with local businesses and Potosi Area Chamber of Commerce to develop plans and strategies that incorporate businesses with academic and career planning. The intent is to develop a plan that benefits the businesses as well as the students, facilitating youth apprenticeships, shadow opportunities, and work-based learning experiences.

Additionally, we will continue to work with Southwest Technical College and the University of Wisconsin Platteville to include Potosi students in postsecondary activities such as college and career fairs, tours, conferences, and participation in college level courses through the Youth Options Program.

Currently, we are working with Jamie Nutter through CESA 3 to offer transcribed credit courses and the opportunity for students to graduate with an associate's degree.

Description of career and technical education (CTE) programming available, staff professional development for employment program requirements.

Career and Technical Education (CTE) centers on exploration in relation to the world of work. Before graduation, students will be given opportunities that will help in the development of an individualized career plan that is in line with their abilities, aptitudes, and interests. These opportunities include:

- Work Based Learning: Strengthens partnerships with businesses and higher education institutions and allows students opportunities to reinforce workplace skills and behaviors.
- College and Career Readiness
- Academic and Technical Skills: Promotes life-long learning in a global society.
- Leadership and 21st Century Skills Through Career and Technical Student Organizations (CTSOs): Communication, critical thinking, problem solving, entrepreneurship and leadership are just a few of the skills developed through CTSOs

This section is under construction.
