

A Well-Rounded Education: In addition to developing academic skills, the Potosi School District also provides experiences that nurture aptitude in critical thinking, problem solving, teamwork, etc. We also include arts, music, and other enrichments within our curriculum. Research has consistently demonstrated the value of spending time in enrichment activities and courses for developing these broader set of skills and interests.

- School-Sponsored Community Activities
- Participation in Co-Curricular Athletic Activities
- Participation in Co-Curricular Academic Activities
- Participation in Co-Curricular Music/Arts Activities
